Aspiration

Computer Science student interested in software development and project coordination. I like organizing tasks, documenting progress, and working with teams to complete projects. Looking for an opportunity to learn and support projects.

Education

Bachelor of Engineering in Computer Science and Engineering

2022–2026

PES College of Engineering, Mandya(Autonomous Institution affiliated to VTU, Belagavi)
CGPA - 8.41

Skills

Project Coordination Skills: Task planning, project documentation, team coordination, requirement gathering, progress reporting, MS Excel, MS PowerPoint, Jira

Technical Skills: Spring Boot, MySQL, HTML, CSS, React, Java with JSP, FastAPI, Figma, GitHub

Projects

Library Management System | *Java with JSP, HTML, CSS, JavaScript, MySQL | Excel, Power Point*

- Planned weekly milestones and divided development tasks among teammates to complete features on schedule
- Documented requirements and testing steps, and updated team members on progress and risks during development
- Built login and book management modules using Java, JSP, and MySQL

GreenBasket: Grocery Ordering Platform | *SpringBoot, HTML, CSS, MySQL, JavaScript | Power Point, Jira*

- Planned module-wise tasks and shared weekly progress updates with teammates
- Documented requirements and tested features during login, product upload, and order flow.
- Built secure farmer and consumer modules and a responsive interface using SpringBoot, MySQL, and REST APIs

Rice Pest Prediction System | *Python, PyTorch, Gradio, ResNet18, YOLOv8 | Power Point, Excel, Jira*

- Coordinated timelines between model training and UI development while tracking blockers and dependencies
- Created requirement and test notes and shared weekly updates with the team to align deliverables
- Implemented AI prediction UI using Python, ResNet18, YOLOv8, and Gradio

Customer Feedback Management System | *SpringBoot, HTML, CSS, MySQL | Power Point, Excel, Jira*

- Gathered requirements from target users and translated them into a clear feature task list for the team
- Tracked milestones and performed test documentation after every feature enhancement
- Built CRUD feedback functionality using Spring Boot and MySQL

EduAI Voice: Multilingual Textbook Assistant | *FastAPI, React, MongoDB, Python, JavaScript, Google Gemini, Murf AI*

- Helped divide work across backend, frontend, and AI modules, and tracked completion of weekly milestones
- Documented API requirements and testing feedback, and communicated progress to the team regularly
- Developed textbook search and voice-response components using FastAPI, React, and MongoDB

Key Achievements and Certifications

VEDHA - VVCE EdTech Hackathon

Conducted by: Vidyavardhaka College of Engineering, Mysuru

- Coordinated task planning and weekly updates with teammates to reach the final round
- Helped document features and develop a learning platform with quizzes and team projects

Deloitte - Data Analytics Job Simulation

- Created interactive dashboards in Tableau to analyze factory and machine downtimes using real-world telemetry data

Infosys Springboard - Java Foundation Certification

- Certified in Java Foundation by Infosys Springboard, covering essential Java programming principles
